Satisfaction notice

By this letter, the Budfox Messenger team wants to attest to their overall satisfaction regarding our collaboration with Cuberto Design's organizations. Through their vision and creative approach, they have successfully made our project alive. The team is young, responsive and full of resources to develop all software projects (app & software).

Before we decided to work with them, we received four estimates, and Cuberto's appeared to us to be the best value for the quality/price ratio.

Sincerely,

Tristan DE HAENEN / Co-founder & CEO
